Elections

1. Social Media Secretary - Aaron Osher
 - Hustings
 - Alisha D: 1st Year CompSci, Wants to improve promotion of events and Instagram, link with other Hackathons
 - James F: Manifesto was read due to internet difficulties
 - Méabh M: 3rd Year CompSci, lots of time on Social Media, wants to improve Brand presence of HackSoc to bring more people in, engage with instagram and use going live at events to improve presence.
 - Question: First step ing outside of the School of CS - DC
 - Alisha D: Focus on how skills can be used outside of CS
 - James F: Appeal to uses of CompSci in other subject and the fun side of computing
 - Méabh M: Making sure things are approachable, focus on the accessibility, focus on UoN level advertising

Question: How would you make the HackSoc Brand unique against other personal/other brands - AlexiD

Alisha D: Personal instagram is recreational so HackSoc would be a very different advertising focused endeavour, advertising for reach while personal instagram is for personal enjoyment

James F: Seperate personal brands with each society along with brand guidelines

Méabh M: HackSoc note on photos to solidify brand, very distinct personal brand from HackSoc so unlikely to cross over

Question: How would you market digital events - AO

Alisha D: Use images of the online content in advertising, show attendance

James F: Push the idea of low barrier to entry, and fun, clear branding and images portraying the event

Méabh M: Use humour, play around with breaking down stress, welcome people at their own level of engagement

Question: How would you manage your time commitments to fulfil the role - AlexiD

Alisha D: Scheduled posts, previously juggled sport, music and time out with friends

James F: Shorter but more frequent commitments are easy to fit into time and the similar role on AnimeSoc Committee reinforces this structure

Méabh M: Points to time management with good grades and holding down a job throughout 1st and 2nd year CompSci, constantly on Social Media anyway

Question: How would you publicize Cyber Security, especially with preconceptions about the field - HM

Alisha D: Google Images demonstrate very intimidated cutting edge imagery, softening this can make it more accessible

James F: Highlight the less technical elements, change imagery away from terminals and code, focus on the benefits of the skills learnt, the fact sessions stand alone for drop in

Méabh M: More accessible imagery, but avoid being patronising, emphase the ability to learn relevant skills, good CV skills

Results:

Round 1: Méabh M won with 13 of 17 votes

Winner: Méabh M
