

## HackSoc

Minutes for 2021-12-04T12:00+00:00/PT1H

**Present:** James Frost (Chair), Jacob Garby, Zac Garby, Alisha Dadar Daudi Wampamba,

**Absent:** Liam-Elio Colabuono-McDonagh,

### Terms of Reference

#### 1. State of Events

Four events left to run this year. Details are below.

### New Business

#### 1. Its too late to organise an official trip, but promote Astonhack in the discord.

Events until the end of Term:

#### 2. Tuesday December 7<sup>th</sup> - Christmas quiz at Rose and Crown.

Need to pay room fee (£35) and refundable deposit (£100). (Has been done by James)

Need to have a projector. Go and test on Monday, and if it doesnt work then Peter has one.

Each committee member will make a quiz round.

PowerPoint of questions, around 10 questions per round.

Also provide a separate list of answers.

A bit themed around both Christmas and computing.

Quiz will be done in teams.

Will need paper and pens for people to write down their answers on.

Prize for winning team of hoodies, and the committee will buy them a drink.

Party games for afterwards:

Task Master (in quiz teams?)

Jackbox

Werewolf

Musical Chairs

Needs putting on website.

#### 3. Thursday December 9<sup>th</sup> - Programming Café

Needs room booking.

Needs putting on website.

4. Tuesday December 14<sup>th</sup> - Making a blog and getting it online.
  - Zac will lead the first half on making a blog with Hugo.
  - James will lead the second half, on hosting your website, and getting it a domain name.
  - Needs room booking.
  - Needs putting on website.
5. Thursday December 16<sup>th</sup> - How email works talk
  - James will be giving it.
  - Needs room booking.
  - Needs putting on website.
6. Competition over Christmas break:
  - Game jam.
  - Introduce at our Christmas session on the 16<sup>th</sup>.
  - Prize of an Amazon voucher, or maybe a Raspberry Pi 4.
7. End of term questionnaire to find out what events people would like to see in future.
8. Next term starts on January 10th, but exams are going on until the 29th.
  - During January we will run weekly programming cafés, but not anything else.
  - Proper events restart in February.
- Ideas for next term:
9. Intro to python workshop series.
10. Microcontroller talk
  - Jacob will lead.
  - Could give away cheap microcontrollers at end.
11. "Programming languages and why they all suck."
  - Daudi will lead.
  - Talk about how different programming languages have their own niches.
12. Lightning talks event.
13. Julian Onions talk
  - Something about first getting email setup in UK universities.
  - He's a physics professor at UoN.
  - James is the point of contact.

### **Any Other Business**

Well have an events SIG during the Christmas holidays to flesh out next years plans.
