

HackSoc

Minutes for May 17, 2019

Present: AO (Chair), PF, JM, DC, MM, AD, HM, ZA, OS, VP, SK

Absent: TD

Reports

HackNotts Planning - AD

1. Prospectus has not been finished
Zain will get it done tomorrow (May 18)
2. Initial Budget is in the review stage
3. We have a list of sponsors to be approached
4. Meeting with MLH is after this call
5. RST has been notified that we need networks

Old Business

1. Slideshow Karaoke Event - SK
Booking is confirmed
Event will cost £50
SK to work with PF on events form. Deadline is 28th
Need to make Drinks Vouchers (half-size Business Cards?)
Prepare an event-specific drinks menu
MLH Localhost stuff needs to be applied
To be added to website (DC)
Start social media promotion (MM)
Newsletter (AO)
2. Core Funding - AO
Because of lowering membership fees and margins money we won't be applying for Core Funding
3. Instagram Account - VP/MM
We'll be creating an Instagram
MM to create an Instagram

New Business

1. Accounting Solutions - AO

AO and JM to sit down after June 5 to set this up

2. Events Training Concerns - VP

We recieved an email from a <18 wanting to attend HackNotts

Events form will need be submitted asap

We will not publically be a less 18 event

3. Cyber Security Plans - HM

Plans to take people to CyberExpo and other Cyber security conference style events in London

likely pre-christmas

HackTheBox - Capture the flag

Would like to setup a University account with Hack the Box

If the we're unable to get Hack the Box through the University, there are likely other options that run in browsers

It appears as though you don't need to connect to them over a VPN, it can be done via SSH or in a browser.

Workshops

No hacking/penetration testing workshops because the school is concerned about teaching "breaking" over "protecting"

HN has spoken to Microsoft and Mozilla about their bug bounty programmes and wants to run workshops around them

Wants to create a HackSoc YouTube or similar to share video content of what we cover in workshops

We will likely only run five workshops over the year

Liasing with Mike Pound on syllabous creation is key to ensuring that content is safe

Proposed procedure for creating a syllabous

Topic is discussed in committee

After approved by committee create proposal

Consult with Mike Pound on proposal

Present proposal to the school

Following school approval we then start to market

Cyber subgroup/team

Could potentially resolve the reference issue that Max raised by it being an opt-in thing

An opt-in group for people that want to prepare for competitions themselves

We will not be able to do any type of traning officially

4. Try and post in the 2019/20 UG Fresher groups in other faculties

Next Meeting:
